Safety Information

Dear customer,

With this letter we would like to inform you about the preventive measures taken.

REF 690630, Biliary drainage bag, with NRV, 1,5 Liter /90cm

Based on feedback from the market, we have found that the biliary drainage bag repeatedly, among other things, is used for pleural drainage or other unauthorized applications (off-label use) (use does not correspond to the intended purpose). We have therefore decided (in order to avoid possible complications) to point out once again that the biliary drainage bag may only be used for a clearly defined purpose. This is as follows:

Use for biliary drainage.

Other uses are not permitted. For this reason we have decided to clearly define this purpose in the product information sheet. Furthermore, we have created an instruction leaflet that also clearly defines the intended use.

The clinic advisor responsible for you will be happy to answer any further questions or give you instructions.

Please ensure in your organization that all users of the above Products and other persons to be informed become aware of this customer information. If you have given the products to third parties, please forward a copy of this information to the third party concerned.

Best regards
ASID BONZ GmbH

Frank Bündler
Head of QM/RA
