NUJNO: VARNOSTNO OBVESTILO — PI-22-4559

Prekrita žilna opornica Covera™ in Covera™ Plus

REF. št. in št. lota: Glejte Prilogo 1

Vrsta ukrepa: Umik izdelka

Za: Žilni kirurgi, intervencijski radiologi, intervencijski kardiologi, angiologi

Ta dopis vsebuje pomembne informacije, ki jim je treba nameniti **takojšnje** pozornost.

Spoštovana stranka,

BD izvaja varnostni korektivni ukrep za odstranitev specifičnih lotov prekritih žilnih opornic Covera™ in Covera™ Plus podjetja Angiomed GmbH & Co. Medizintechnik KG (hčerinska družba v popolni lasti družbe Becton Dickinson and Company (BD)). Naši distribucijski sezname kažejo, da je vaša organizacija morda prejela zadevni izdelek, naveden v prilogi 1.

Ta umik izdelka je omejen na kode izdelkov/številke lotov, ki so navedene v prilogi 1. Ukrep ne vpliva na nobeno drugo kodo izdelka ali številko lota.

Opis težave

Na podlagi povratnih informacij strank je družba BD ugotovila, da imajo zadevne prekrute žilne opornice Covera™ in Covera™ Plus potencial, da pride do težav pri uvajanju (tj. do neuspešnega uvajanja prekrute žilne opornice) zaradi okvar vezi drsnega bloka (okvara spojnice, ki prenaša silo) v ročaju pripomočka.

Klinično tveganje

Zaradi popolnoma ali delno neuspešne namestitve izdelka je najverjetneje potrebna perkutana zamenjava z obstoječim dostopom. V redkih primerih lahko pride do iatrogene žilne poškodbe zaradi umika pripomočka, manipulacije ali nenadnih/nepričakovanih gibov, zlasti v okviru težke ali delne namestitve opornice ali njenega napačnega položaja. Potrebni so lahko dodatni endovaskularni manevri.

Če je bil izdelek že varno nameščen/uporabljen, za bolnike, ki so že zdravljeni z napravami/pripomočki, ki so trenutno *in situ*, niso potrebne nadaljnje aktivnosti.

Do danes ni bilo primerov, v katerih bi bil zaradi te težave potreben odprt kirurški poseg.

Ukrepi družbe BD

BD izvaja ukrepe za preprečevanje ponovitve te težave z izdelkom.
